

Provisioning your Z-Connect & Gateway

Provisioning Prerequisites

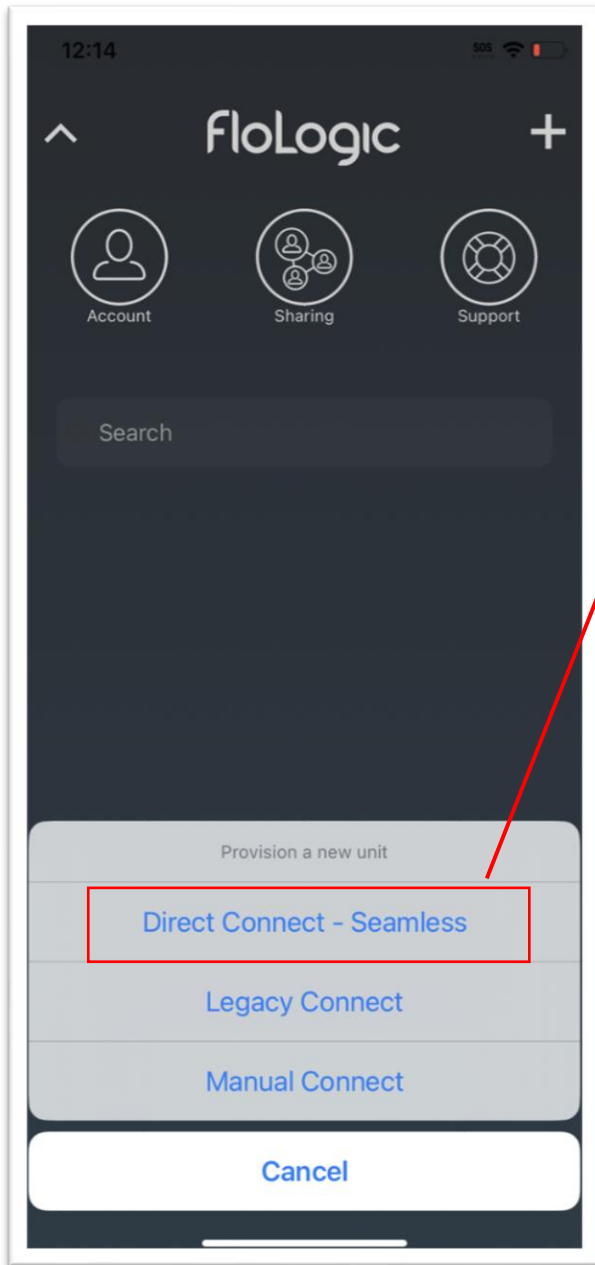

1. Completed the IOS / Android set up for your device. (If this step has not been completed, visit the guide “Preparing your Phone”. Follow the steps that apply to the operating system on your device.
2. Registered for a new account through the Test Server on the FloLogic App.
3. Confirmed your identity through the verification email sent to the email address you used to register your new account.
4. Connected the Z-Connect and Gateway to your valve, following the Quick Start or Main Guides.

Navigate to the valve listing screen.
Press the down arrow on the top left corner of the screen.

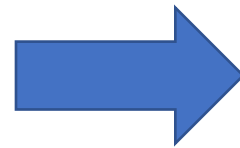

Press the “ + ” sign on the valve listing screen to navigate to the provisioning screen.

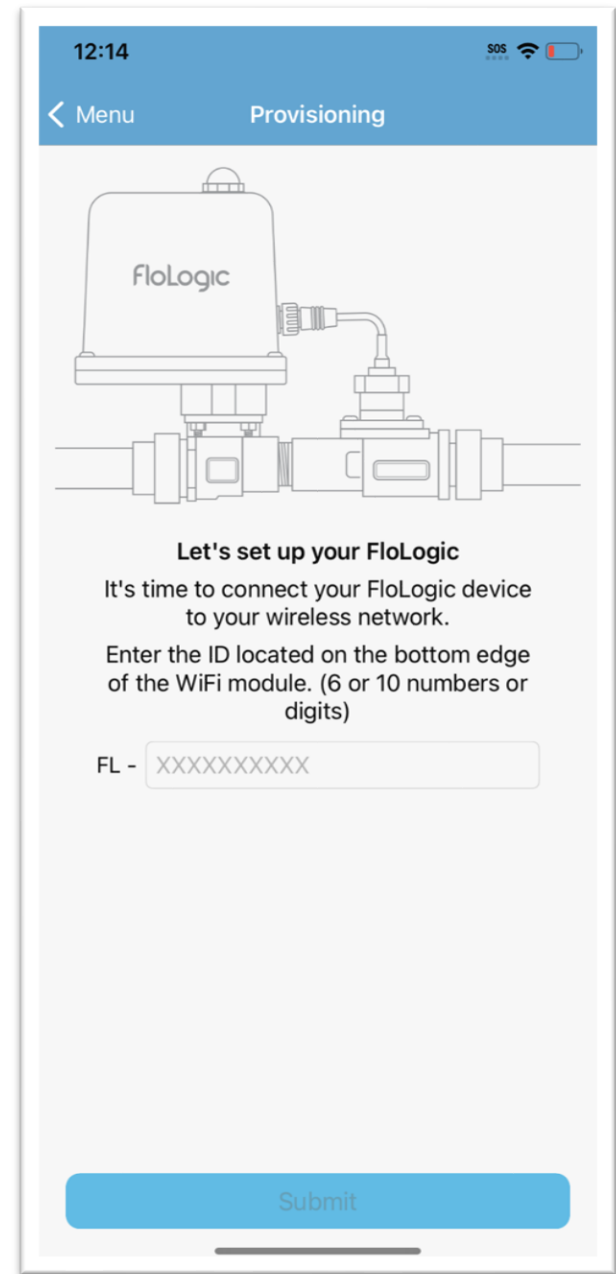

After pressing the plus sign, you will have an option for provisioning; there will be three methods for provisioning.

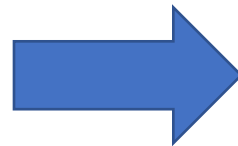

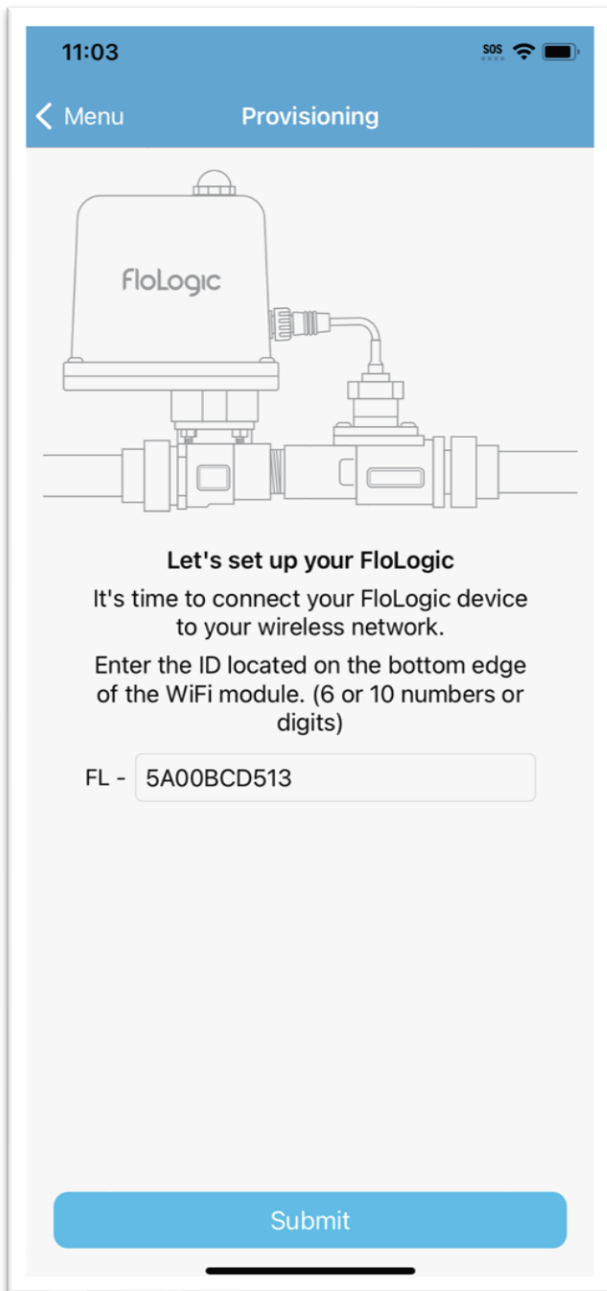

Choose the “Direct Connect – Seamless” option.

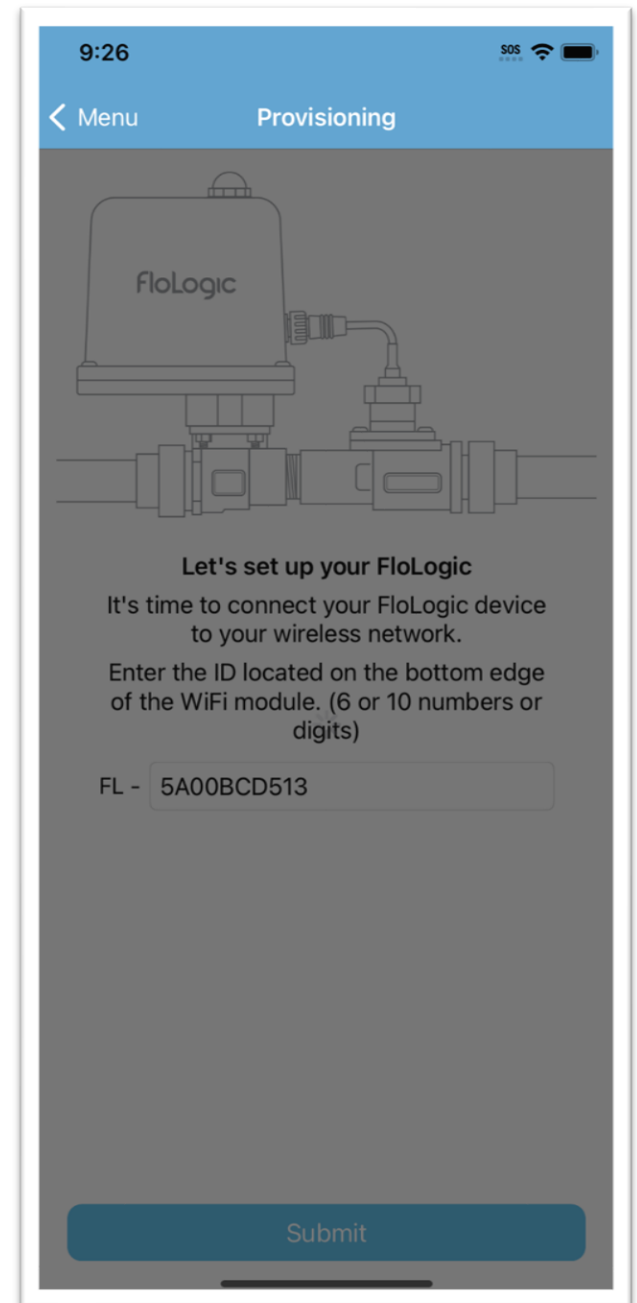

On the Z-Connect and Gateway, there is a 10-digit serial ID. Enter that 10-digit number into the empty box, and press “Submit.”

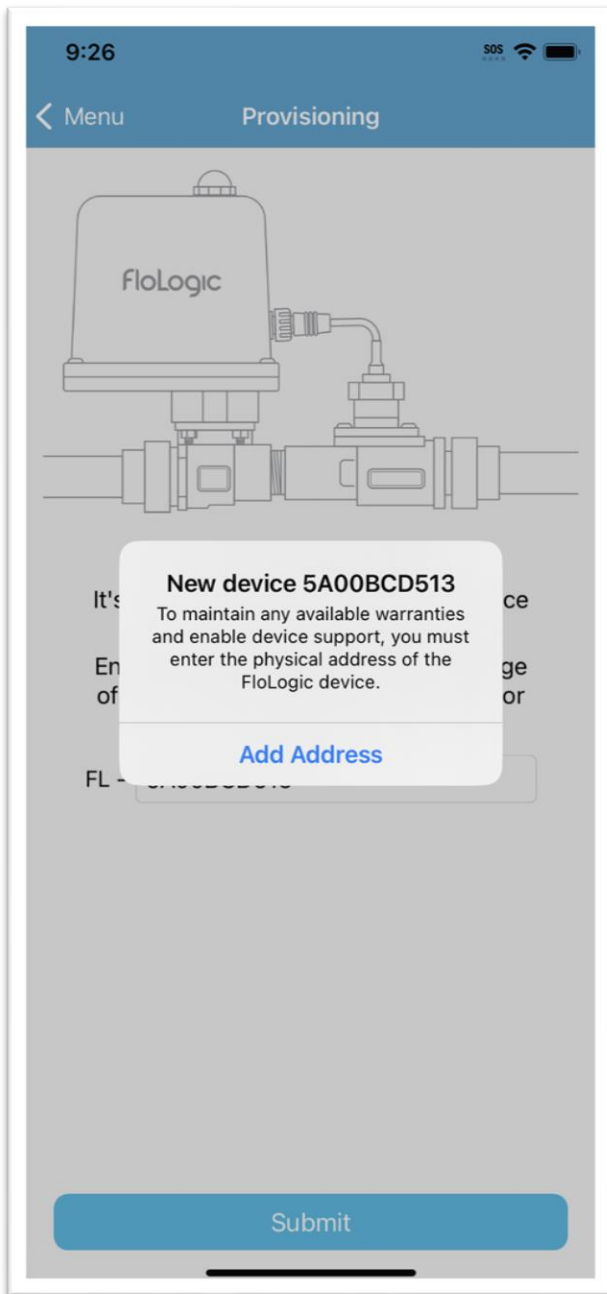

Entering the letter ‘O’ as a value for the number ‘0’ (zero) will cause the app to state “The ID is invalid.”

After pressing "Submit," the screen will load the next prompt.

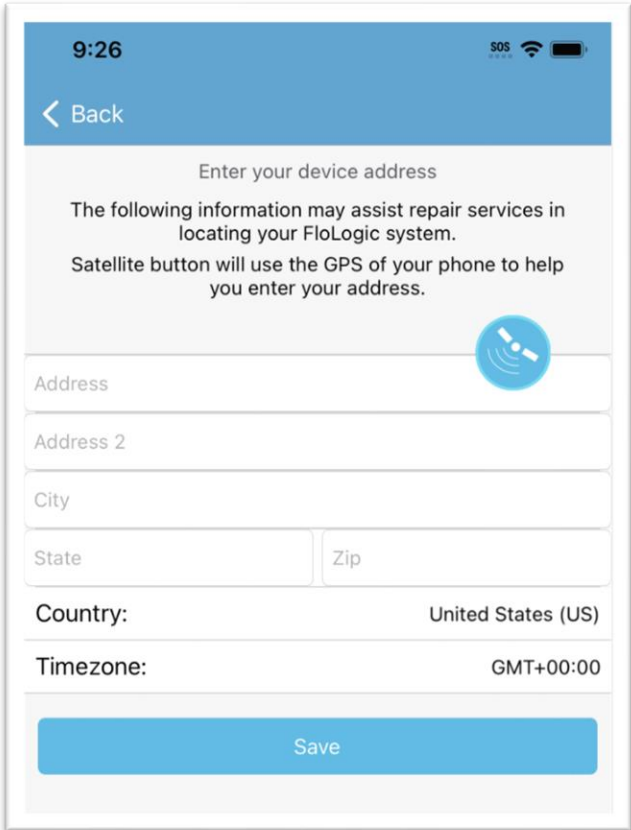

After loading, a pop-up will appear prompting you to "enter the physical address of the FloLogic device."

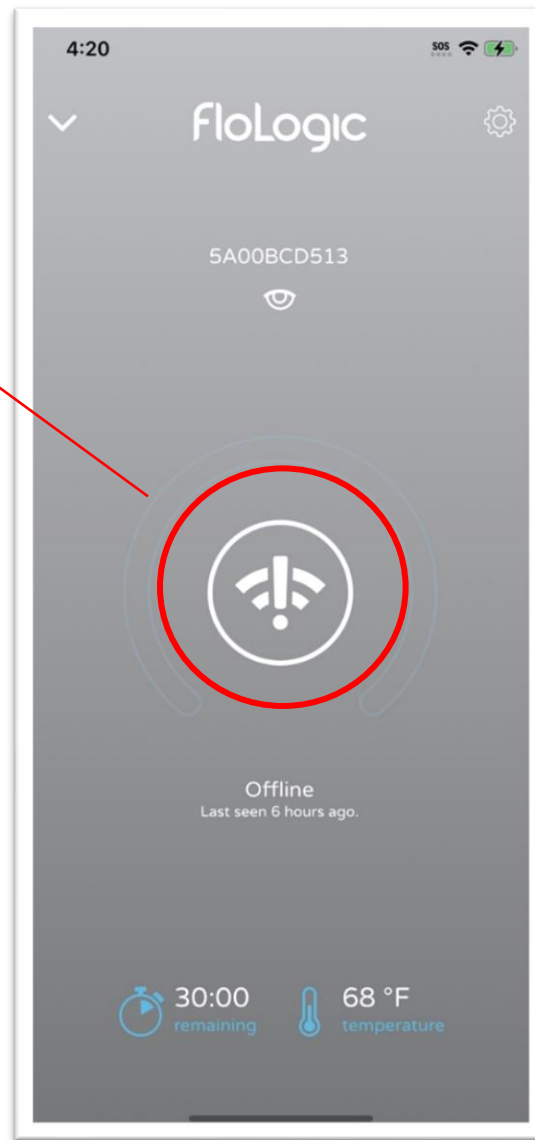

When pressing the "Add Address," on the pop-up, it will take you to this screen to enter in the Installation address for the Z-Connect.

After successfully provisioning the Z-Connect, it will appear offline in the app.

To make it appear online, press the mode icon in the middle of the screen and change the mode.

If you were able to change the mode of your Valve through the FloLogic app, congratulations, you are all set up and may begin testing! Please reference the initial Beta testing email to get details on how to submit any bugs, questions, or general updates you may have throughout the Beta-Testing process. We appreciate your help and look forward to hearing from you soon!

If you were unable to provision your Gateway and Connect to the FloLogic app. Please reference the “Provisioning Troubleshooting” document.
